

Somerset Enhanced Velvet

- 225 gsm
- Mould made traditional artist paper
- 100% Cotton
- Natural woollen felt textured
- Calcium carbonate buffered
- Acid free and archival

Somerset Enhanced Velvet has won awards from the BIPP (British Institute of Professional Photography), as well as 'Best Buy' and 'Highly Recommended' awards from the UK's leading Professional and Amateur magazines, namely Practical Photography and Digital Photo respectively.

Mould made of 100% cotton, this natural white paper yields exceptional depth of colour with a velvety fine art texture. The surface of the paper becomes an inherent part of the finished print, without overwhelming the image, but adding a fine art element to the composition.

Somerset Enhanced was one of the first inkjet fine art papers to address the needs of photographers and artists nearly 10 years ago. It continues to be a staple for fine art reproduction and photography. Perfect for limited editions demanding a consistent art feel.

Somerset Enhanced is buffered with calcium carbonate to combat acid attack that finished prints may encounter from air pollution.
